
PLAN TOYS
Sustainable Play
2026

Play nurtures the seeds of curiosity, allowing them to take root and grow into a lifelong passion for learning.

Play is where curiosity first awakens, gently nourished by exploration, imagination, and wonder. At PlanToys, we see play not only as the beginning of learning but also as the sunlight and soil that help children grow with confidence, creativity, and compassion.

For 45 years, we have tended these roots with care, creating toys that honor nature while supporting every stage of development, physical, emotional, social, and intellectual. Each toy carries a purpose to spark imagination, invite discovery, and reconnect children with life's essential rhythms. This belief continues in our Farm to Table collection, where children rediscover the journey of food from soil to plate through planting, cooking, and sharing. Through these meaningful experiences, they learn not only where their food comes from but also how their actions shape the world around them.

Through play, children don't simply grow, they learn to live thoughtfully, creatively, and with a joy that continues to unfold throughout their lives.

What is Unit Plus?
This collection of open-ended toys is designed to support each growth stage equally. Toddlers can begin to explore color, shape and size recognition while elementary-aged children develop further understanding of foundational math skills. The standardized size of each item in the collection makes it possible for the sets to be played with alongside the others to enlarge the set for the boundless play value.

What is Unit System?
PlanToys adopted Caroline Pratt's unit block system, using her original block size (1⅜" x 2¾" x 5½" or 3.5 x 7 x 14 cm) as a base and adjusting proportions as needed. This standardized system allows blocks to fit together seamlessly, encouraging children to build creatively and learn through play. For example: Colorful 40 Unit Blocks, 100 Counting Cubes - Unit Plus, etc.

Pretend Play

Farm to Table

Farm to Table celebrates the full journey of growth, from soil to kitchen to shared meals. In **PLANT**, children nurture tiny gardens and learn where food truly begins, watching life rise from earth and care. Through **COOK**, ingredients transform under their hands, teaching patience, self-reliance, and the joy of creating something by themselves. And in **EAT**, children share and serve pretend meals, discovering gratitude, connection, and the meaning behind everyday nourishment.

This journey mirrors the real rhythms of nature, teaching children that care, awareness, and mindful action help every part of life grow, flourish, and sustain itself.

PlanWorld

PlanWorld encourages learning to stretch outward into wider horizons. As children build towns and connect people, places, and nature, their awareness of community grows root by root. This expanding understanding helps them see how everything is interconnected—forming a worldview that matures with balance and purpose.

Pretend Play

Dollhouse

Dollhouse play nurtures emotional learning that grows quietly and steadily. By arranging spaces and creating family stories, children's ability to observe and interpret feelings begins to unfold. Over time, this inner understanding expands—much like branches forming the shape of a loving, connected home.

Pretend Play

Role Play

Role Play allows understanding of people and emotions to develop gently from within. As children take on different roles, empathy begins to unfurl like soft new leaves. With every story they create, their social awareness expands—growing into a deeper understanding of how relationships work.

Blocks & Construction

Blocks & Construction nurtures learning that grows steadily from a simple base, like a trunk rising one ring at a time. When children build, stack, and experiment, early problem-solving takes shape and gains structure. Their ideas branch into creativity and early engineering, growing into forms they can see and touch.

Learning & Education

Montessori Inspired

PlanToys Montessori-inspired approach stems from the brand's deep commitment to child development and sustainable play.

While we do not explicitly market itself as a "Montessori" brand, our toy designs align closely with Montessori principles. Our company's focus on open-ended play, natural materials, and fostering independence in children reflects the core values of the Montessori method.

Learning & Education

In Learning & Education, curiosity develops layer by layer, much like a growing stem gathering strength. As children explore patterns, problems, and ideas, their understanding extends outward with new connections. With each discovery, their thinking matures—forming a network of knowledge ready to support future learning.

Activity Play

Activity Play encourages learning to grow. Through climbing, balancing, and jumping, children's abilities strengthen from the inside out. As they test what their bodies can do, their courage and resilience expand, forming the strong, flexible branches of lifelong physical confidence.

Water Play

In Water Play, curiosity stirs and stretches outward. Every pour, splash, and swirl encourages ideas to sprout as children test how water flows, moves, and reacts. Slowly, their understanding branches into early scientific thinking—fluid, flexible, and full of possibility.

Babies

For babies, learning begins as a tiny spark of awareness quietly forming beneath the surface. Through sensory play, this awareness rises like a first tender shoot—guided by touch, sound, and gentle movement. Day by day, their abilities strengthen, laying down the early roots of perception that will continue to grow throughout their lives.

Music

Music play allows a child's inner rhythm to awaken and slowly unfold. As they shake, tap, and listen, their sensitivity to sound deepens—much like a young stem learning to sway with the breeze. Over time, coordination, expression, and confidence grow richer, allowing their creativity to resonate and take shape like a melody coming fully alive.

PlanHome

In PlanHome, early curiosity begins to take root in the comfort of everyday routines. As children explore their surroundings, this quiet curiosity pushes up like a small shoot, learning to stand on its own. With time, their choices and actions grow sturdier, shaping a sense of independence that develops naturally.
